

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Madeleine Clayton 10/22/2001
Departmental Forms Clearance Officer
Office of the Chief Information Officer
14th and Constitution Ave. NW.
Room 6086
Washington, DC 20230

In accordance with the Paperwork Reduction Act, OMB has taken the following action on your request for the extension of approval of an information collection received on 08/30/2001.

TITLE: Northeast Region Vessel Identification Requirements

AGENCY FORM NUMBER(S): None

ACTION : APPROVED

OMB NO.: 0648-0350

EXPIRATION DATE: 10/31/2004

BURDEN	RESPONSES	BURDEN HOURS	BURDEN COSTS
Previous	5,821	4,363	58
New	5,821	4,363	58
Difference	0	0	0
Program Change		0	0
Adjustment		0	0

TERMS OF CLEARANCE: None

NOTE: The agency is required to display the OMB control number and inform respondents of its legal significance (see 5 CFR 1320.5(b)).

OMB Authorizing Official Title

Donald R. Arbuckle Deputy Administrator, Office of
Information and Regulatory Affairs

PAPERWORK REDUCTION ACT SUBMISSION

Please read the instructions before completing this form. For additional forms or assistance in completing this form, contact your agency's Paperwork Clearance Officer. Send two copies of this form, the collection instrument to be reviewed, the supporting statement, and any additional documentation to: Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
NORTHEAST REGION VESSEL IDENTIFICATION
OMB CONTROL NO. 0648-0350**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The success of fisheries management programs depends on regulatory compliance. The vessel identification requirement is essential to facilitate enforcement. The ability to link fishing or other activity to a vessel owner or operator is crucial to the enforcement of regulations issued under the authority of the Magnuson-Stevens Fisheries Conservation and Management Act. By being able to identify vessels, enforcement personnel can easily identify permit holders that are fishing in approved areas or at unapproved times.

Vessel identification is required by all Federally-permitted vessels in the Northeast region.

2. Explain how, by whom, how frequently, and for what purpose the information will be used.

The regulations (50 CFR 648.8 and 50 CFR 697.8) specify that Federally-permitted vessels must be marked with the vessel's official number. The vessel's official number is required to be displayed on the port and starboard sides of the deckhouse or hull, and on a weather deck. The official number identifies each vessel and should be visible from distances at sea and by air. The official number provide law enforcement personnel with a means to monitor fishing, at-sea processing, and other related activities, to ascertain whether the vessel's observed activities are in accordance with those authorized for that vessel. The identifying number is used by the National Marine Fisheries Service (NMFS), the U.S. Coast Guard, and state marine agencies in issuing violations, prosecutions and other enforcement actions. Vessels that qualify for particular fisheries are more readily prosecuted, and this allows for more cost effective enforcement. Cooperating fisherman also use the number to report suspicious activities that they observe. Fisherman ultimately benefit as unauthorized and illegal fishing is deterred and more burdensome regulations are avoided.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

Improved technology is currently being developed for vessel identification. A vessel monitoring system has been developed that allows for the electronic monitoring of vessel identification and position by law enforcement personnel. This system is currently required by vessels possessing Federal limited access scallop permits. This system has not been implemented for all Federally-permitted vessels. While the system continues to be developed for that purpose, vessels will

continue to be required to display an identification number on its deckhouse or hull, and its weatherdeck.

4. Describe efforts to identify duplication.

There is no duplication with other collections. An identifying number is required by the National Marine Fisheries Service, although the U.S. Coast Guard requires the name of the vessel be marked on its hull.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Nearly all vessels in the respective fisheries are categorized as small businesses. The collections will not have a significant impact on small businesses, and no special modifications of the requirements were considered necessary to accommodate the needs of small businesses.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

If vessels were not identified the National Marine Fisheries Service and U.S. Coast Guard could not enforce the fisheries management measures. The frequency is one-time, although the numbers must periodically be maintained to remain legible.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

No special circumstances require the collections to be conducted in a manner inconsistent with the OMB guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice (copy attached) solicited public comments. None were received. The regulatory process also ensured public comment when the requirements were proposed.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payments or gifts are provided.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

No confidentiality is provided.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

No sensitive questions are asked.

12. Provide an estimate in hours of the burden of the collection of information.

The vessel's official number must be displayed in a specified size on the port and starboard sides of the deckhouse or hull and on a weather deck. The official number is painted on the vessel. It is estimated that each vessel will require 45 minutes to display the official number on the vessel. Given the adverse weather conditions and salt water, each number is expected to need repainted or repaired annually. Table 1 provides a summary of annual burden for vessel identification.

The cost for the 4,363 total burden hours is estimated to be \$65,445 (\$15 an hour).

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection.

The costs to fishermen are minimal. Materials needed are paint and paintbrush, and possibly a stencil. The cost of paint each year for re-painting or repairs can be estimated to be \$10 per respondent. Given the adverse weather conditions and salt water, gear will need to be repainted, repaired or replaced annually. Table 1 provides a summary of annual cost for vessel identification.

14. Provide estimates of annualized cost to the Federal government.

There are no Federal costs.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

No changes are requested.

16. For collections whose results will be published, outline the plans for tabulation and publication.

No results will be published.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

N/A.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

There are no exceptions.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods

Table 1. Calculation of Public and Federal Estimate of Reporting Burden Hours and Costs.

Requirement	Number of Entities	Items/ Entity	Total Number of Items	Cost (\$) materials per vessel	Response Time (Hours)	Total Burden (Hours)	Cost (\$) to Government	Cost (\$) to Public
Vessel Identification	5821	1	5,821	10	0.75	4,363	N/A	58,210

§ 648.8

50 CFR Ch. VI (10–1–00 Edition)

(see Table 1 to § 600.502) for the address of NMFS Statistics.

(2) *Fishing vessel log reports.* Fishing log reports must be received or postmarked, if mailed, within 15 days after the end of the reporting month. Each owner will be sent forms and instructions, including the address to which reports are to be submitted, shortly after receipt of a Federal fisheries permit. If no fishing trip is made during a month, a report stating so must be submitted.

(3) *At-sea purchasers, receivers, or processors.* All persons purchasing, receiving, or processing any mackerel, or squid, or butterfish, or scup, or black sea bass at sea for landing at any port of the United States must submit information identical to that required by paragraph (a)(1), (a)(2), or (a)(3) of this section, as applicable, and provide those reports to the Regional Administrator or designee on the same frequency basis.

(g) *Additional data and sampling.* Federally permitted dealers must allow access to their premises and make available to an official designee of the Regional Administrator any fish purchased from vessels for the collection of biological data. Such data include, but are not limited to, length measurements of fish and the collection of age structures such as otoliths or scales.

[61 FR 34968, July 3, 1996, as amended at 61 FR 43425, Aug. 23, 1996; 61 FR 58465, Nov. 15, 1996; 62 FR 14646, Mar. 27, 1997; 63 FR 52640, Oct. 1, 1998; 63 FR 58329, Oct. 30, 1998; 64 FR 57593, Oct. 26, 1999; 65 FR 1569, Jan. 11, 2000; 65 FR 45851, July 26, 2000]

§ 648.8 Vessel identification.

(a) *Vessel name and official number.* Each fishing vessel subject to this part and over 25 ft (7.6 m) in registered length must:

(1) Affix permanently its name on the port and starboard sides of the bow and, if possible, on its stern.

(2) Display its official number on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck so as to be clearly visible from enforcement vessels and aircraft. The official number is the USCG documentation number or the vessel's state registration number for vessels not re-

quired to be documented under title 46 U.S.C.

(b) *Numerals.* Except as provided in paragraph (d) of this section, the official number must be displayed in block arabic numerals in contrasting color at least 18 inches (45.7 cm) in height for fishing vessels over 65 ft (19.8 m) in registered length, and at least 10 inches (25.4 cm) in height for all other vessels over 25 ft (7.6 m) in registered length. The registered length of a vessel, for purposes of this section, is that registered length set forth in USCG or state records.

(c) *Duties of owner.* The owner of each vessel subject to this part shall ensure that—

(1) The vessel's name and official number are kept clearly legible and in good repair.

(2) No part of the vessel, its rigging, its fishing gear, or any other object obstructs the view of the official number from any enforcement vessel or aircraft.

(d) *Non-permanent marking.* Vessels carrying recreational fishing parties on a per capita basis or by charter must use markings that meet the above requirements, except for the requirement that they be affixed permanently to the vessel. The non-permanent markings must be displayed in conformity with the above requirements.

(e) *New Jersey surf clam or ocean quahog vessels.* Instead of complying with paragraph (a) of this section, surf clam or ocean quahog vessels licensed under New Jersey law may use the appropriate vessel identification markings established by that state.

§ 648.9 VMS requirements.

(a) *Approval.* The Regional Administrator will annually approve VMSs that meet the minimum performance criteria specified in paragraph (b) of this section. Any changes to the performance criteria will be published annually in the FEDERAL REGISTER and a list of approved VMSs will be published in the FEDERAL REGISTER upon addition or deletion of a VMS from the list. In the event that a VMS is deleted from the list, vessel owners that purchased a VMS unit that is part of that VMS prior to publication of the revised

by a vessel with a Federal limited access American lobster permit. A preponderance of all submitted evidence that such American lobsters were harvested by a vessel without a Federal limited access American lobster permit and fishing exclusively for American lobsters in state or foreign waters will be sufficient to rebut this presumption.

(iii) The possession of egg-bearing female American lobsters, V-notched female American lobsters, American lobsters that are smaller than the minimum size set forth in § 697.20(b), or lobster parts, possessed at or prior to the time when the aforementioned lobsters or parts are received by a dealer, will be *prima facie* evidence that such American lobsters or parts were taken or imported in violation of these regulations. A preponderance of all submitted evidence that such American lobsters were harvested by a vessel not holding a permit under this part and fishing exclusively within state or foreign waters will be sufficient to rebut the presumption.

(d) *Atlantic sturgeon fishery.* In addition to the prohibitions set forth in § 600.725, it is unlawful for any person to do any of the following:

- (1) Fish for Atlantic sturgeon in the EEZ.
- (2) Harvest any Atlantic sturgeon from the EEZ.
- (3) Possess any natural or stocked Atlantic sturgeon in or from the EEZ.
- (4) Retain any Atlantic sturgeon taken in or from the EEZ.
- (5) Possess any natural Atlantic sturgeon parts, including Atlantic sturgeon eggs, in the EEZ.

§ 697.8 Vessel identification.

(a) *Vessel name and official number.* Each fishing vessel issued a limited access American lobster permit and over 25 ft (7.6 m) in registered length must:

- (1) Have affixed permanently its name on the port and starboard sides of the bow and, if possible, on its stern.
- (2) Have its official number displayed on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck so as to be clearly visible from enforcement vessels and aircraft. The official number is the USCG documentation number or the vessel's state registration number for

vessels not required to be documented under title 46 U.S.C.

(b) *Numerals.* Except as provided in paragraph (d) of this section, each fishing vessel issued a limited access American lobster permit must display its official number in block arabic numerals in contrasting color at least 18 inches (45.7 cm) in height for fishing vessels over 65 ft (19.8 m) in registered length, and at least 10 inches (25.4 cm) in height for all other vessels over 25 ft (7.6 m) in registered length. The registered length of a vessel, for purposes of this section, is that registered length set forth in USCG or state records.

(c) *Duties of owner.* The owner of each vessel issued a limited access American lobster permit shall ensure that—

(1) The vessel's name and official number are kept clearly legible and in good repair.

(2) No part of the vessel, its rigging, its fishing gear, or any other object obstructs the view of the official number from any enforcement vessel or aircraft.

(d) *Non-permanent marking.* Vessels over 25 ft (7.6 m) in registered length, fishing in the EEZ and carrying recreational fishing parties on a per capita basis or by charter must use markings that meet the above requirements, except for the requirement that they be affixed permanently to the vessel. The non-permanent markings must be displayed in conformity with the aforementioned requirements.

§ 697.9 Facilitation of enforcement.

(a) *General.* See § 600.504 of this chapter.

(b) *Radio hails.* Permit holders, while underway, must be alert for communication conveying enforcement instructions and immediately answer via VHF-FM radio, channel 16, when hailed by an enforcement officer. Vessels not required to have VHF-FM radios by the Coast Guard are exempt from this requirement.

§ 697.10 Penalties.

See § 600.735 of this chapter.

§ 697.11 Civil procedures.

The civil procedure regulations at 15 CFR part 904 apply to civil penalties,

(B) minimize the mortality of bycatch which cannot be avoided;

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors; and

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery.

97-453, 99-659, 101-627, 102-251, 104-297

(b) DISCRETIONARY PROVISIONS.--Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may--

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to--

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone [or special areas,]* or for anadromous species or Continental Shelf fishery resources beyond such zone [or areas]*;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

(2) designate zones where, and periods when, fishing shall be limited, or shall not be permitted, or shall be permitted only by specified types of fishing vessels or with specified types and quantities of fishing gear;

(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the--

(A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);

(B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and

(C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;

(4) prohibit, limit, condition, or require the use of specified types and quantities of fishing gear, fishing vessels, or equipment for such vessels, including devices which may be required to facilitate enforcement of the provisions of this Act;

(5) incorporate (consistent with the national standards, the other provisions of this Act, and any other applicable law) the relevant fishery conservation and management measures of the coastal States nearest to the fishery;

(6) establish a limited access system for the fishery in order to achieve optimum yield if, in developing such system, the Council and the Secretary take into account--

(A) present participation in the fishery,

(B) historical fishing practices in, and dependence on, the fishery,

(C) the economics of the fishery,

(D) the capability of fishing vessels used in the fishery to engage in other fisheries,

(E) the cultural and social framework relevant to the fishery and any affected fishing communities, and

(F) any other relevant considerations;

(7) require fish processors who first receive fish that are subject to the plan to submit data (other than economic data) which are necessary for the conservation and management of the fishery;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research; and

(12) prescribe such other measures, requirements, or conditions and restrictions as are determined to be necessary and appropriate for the conservation and management of the fishery.

97-453, 104-297

FOR FURTHER INFORMATION CONTACT:

Michael Strollo, AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone: (202) 482-5255.

SUPPLEMENTARY INFORMATION:**The Applicable Statute**

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, codified at 19 CFR part 351 (2000).

Background

On August 31, 2000, the Department of Commerce (the Department) received a request from SeAH Steel Corporation ("SeAH") for an administrative review of the antidumping duty order on oil country tubular goods from Korea. On October 2, 2000, the Department published a notice of initiation of this administrative review, covering the period of August 1, 1999 through July 31, 2000 (65 FR 58733).

Extension of Time Limits for Preliminary Results

Because of the complexities enumerated in the Memorandum from Barbara E. Tillman to Joseph A. Spetrini, *Extension of Time Limit for the Preliminary Results of the Antidumping Duty Administrative Review of Oil Country Tubular Goods (OCTG) from Korea*, dated April 18, 2001, it is not practical to complete this review within the time limits mandated by section 751(a)(3)(A) of the Act.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for the preliminary results of review until August 31, 2001. The final results continue to be due 120 days after the publication of the preliminary results.

Dated: April 27, 2001.

Joseph A. Spetrini,

Acting Deputy Assistant Secretary, AD/CVD Enforcement Group III.

[FR Doc. 01-11532 Filed 5-7-01; 8:45 am]

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[I.D. 050201C]

Southwest Region Gear Identification Requirements

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Proposed information collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 9, 2001.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue NW, Washington DC 20230 (or via Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Alvin Katekaru, F/ SWRX1, Room 1110, 1601 Kapiolani Blvd., Honolulu, HI 96814-4700 (phone 808-973-2937).

SUPPLEMENTARY INFORMATION:**I. Abstract**

Regulations at 50 CFR 660.24 and 660.47 require that certain fishing gear must be marked. In the Western Pacific Pelagic Fishery, the vessel operator must ensure that the official number of the vessel is affixed to every longline buoy and float. In the Western Pacific Crustacean Fishery, each trap and float must be marked with the vessel's identification number. The marking of gear aids law enforcement and is valuable in actions concerning the damage and loss of gear.

II. Method of Collection

No information is collected.

III. Data

OMB Number: 0648-0360.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations, individuals or households.

Estimated Number of Respondents: 172.

Estimated Time Per Response: 2 minutes per marking.

Estimated Total Annual Burden Hours: 647.

Estimated Total Annual Cost to Public: \$17,200.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 1, 2001.

Madeleine Clayton,

Departmental Paperwork Clearance Officer, Office of the Chief Information Officer.

L. 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 9, 2001.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental

Paperwork Clearance Officer,
Department of Commerce, Room 6086,
14th and Constitution Avenue NW,
Washington DC 20230 (or via Internet at
MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to George Darcy, Assistant Regional Administrator, Sustainable Fisheries Division, 1 Blackburn Circle, Gloucester, MA, 01930, (978)281-9331, fax (978) 281-9135.

SUPPLEMENTARY INFORMATION:

I. Abstract

Regulations of 50 CFR 648.8 and 697.8 require that all vessels with Federal permits to fish in the Northeast display the vessel's official number. The numbers must be in a specific size at specified locations. The display of the identifying number aids in fishery law enforcement.

II. Method of Collection

No information is collected. The official number must be displayed on the port and starboard sides of the deckhouse or hull and on a weather deck.

III. Data

OMB Number: 0648-0350.

Form Number: None.

Type of Review: Regular submission

Affected Public: Business or other for-profit organizations, individuals or households.

Estimated Number of Respondents: 5,821.

Estimated Time Per Response: 45 minutes (15 minutes for each of three markings).

Estimated Total Annual Burden Hours: 4,363.

Estimated Total Annual Cost to Public: \$58,000.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: May 1, 2001.

Madeleine Clayton,

*Departmental Paperwork Clearance Officer,
Office of the Chief Information Officer.*

Northeast Region Gear Identification Requirements

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Proposed information collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 9, 2001.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue NW, Washington DC 20230 (or via Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to George Darcy, Assistant Regional Administrator, Sustainable Fisheries Division, 1 Blackburn Circle, Gloucester, MA, 01930, (978)281-9331, fax (978)281-9135.

SUPPLEMENTARY INFORMATION:

I. Abstract

Regulations (50 CFR 648.81(f), 648.84, 648.123(b)(3), 648.144(b), and 697.21) require that Federal fishing permit holders using specified fishing gear mark that gear with specified information (the official vessel numbers, Federal permit number, tag number, or other method identified in the regulation). The regulations also specify

how the gear is to be marked (e.g. location and visibility). Marking of gear aids law enforcement and also helps identify gear involved in damage, loss, or civil proceedings.

II. Method of Collection

No information is collected.

III. Data

OMB Number: 0648-0351.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations, individuals or households.

Estimated Number of Respondents: 3,859.

Estimated Time Per Response: 1 minute per marking.

Estimated Total Annual Burden Hours: 36,417.

Estimated Total Annual Cost to Public: \$65,115.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
